The principles of their action are as old as humanity itself, but the knowledge of their action and the way to apply them. How successfully this has been done, the overwhelming popularity and universal use of Radway's Remedies show. The sovereign power of these remedies is so well known that it is everywhere they are in themselves the entire cure of the most violent fevers, the most violent inflammations, the most violent colic, and they are rapidly superseding all the inert or poisonous drugs whose use and abuse has done so much to bring our race to the verge of ruin. It is all our own fault." The popularity of Radway's Remedies places them with

"In no instance have I found the remedy to fail."  
—Dr. Churchill.  
"We have used your preparation of the Hypophosphites in many most happy cases." —C. F. Fowler, M. D.,  
Chicago, Ill.  
"I have been astonished in witnessing the good effects of  
the Hypophosphites. The statements in your pamphlet  
are not at all exaggerated. My patients are cured,  
and my practice is greatly increased by their use."

"They exert an important remedial influence over the tubercular disease by *Morphing* the nervous strength, and by *restoring* the *normal* functions."—*Dr. Wm. Keen, Morphia, Its Therapeutic Functions.*

"I have derived more satisfaction from the use of our Lymphophites than from all other forms of medication, and I have seen the most rapid and permanent cure of the earliest appearance of the symptoms. The patient takes daily about ten grains of the Lymphophites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never enjoyed before."

"Winchester's Lymphophites are unexceptional in their preparation."—*Am. Druggists' Circular.*

represented by Dr. Churchill's method."—*Medical Record*, N. Y. N. O. New York.

Dr. Churchill's method has been used several times given up by attending physicians who are now exempt from all the symptoms of pulmonary disease. I have used this remedy in my own case, with decided success. It was regarded as a remedy by which the patient could be cured by itself, under the best treatment. I am now able to ride, to attend to my sick, as many miles, perhaps in a day, as any other physician in the country."—W. B. Clark, M. D.
